

Our GoDutch mobile phone subscriptions have been designed to specifically tailor to the special needs of Expats. Obviously all our communications are in the lingua franca of the expat community instead of in Dutch. Our subscriptions offer you packages of domestic/EU minutes, messages and data - just like all the other operators. We are, however, unique in that we give you additional free minutes and SMS to over 50 destinations to phone home. To top things off we also offer you really cheap incoming calls to use when you are travelling.

Data traffic (per MB)	€ 0,22	€ 0,27
Send Text	€ 0,22	€ 0,27

**Zone 5 country:** Zwitserland

## Fair Use Policy (FUP)

A Fair Use Policy (FUP) applies to the voice traffic of our subscriptions. The Fair Use Policy is part of our terms and conditions and means that voice, SMS and data usage may be up to 10 times the average usage of all our users. The Fair Use Policy is to ensure that all our customers can use our subscriptions in a normal way - a principle used by all Dutch providers providers, although they may not be as open about it as we are.

We reserve the right to measure traffic to determine whether the customer adheres to this "fair use" policy. If the customer exceeds the average usage of all users over 10 times, we are entitled to charge the "outside of bundle" fee for use above these standards. It is also possible for us to make traffic (temporarily) impossible if the customer is in violation of this "fair use" policy.
