Fair Use Policy

A Fair Use Policy (FUP) applies to the voice traffic of certain subscriptions. The Fair Use Policy is part of our terms and conditions and means that voice, SMS and data usage may be up to 10 times the average usage of all our users. The Fair Use Policy is to ensure that all our customers can use our subscriptions in a normal way - it is a principle used by all Dutch providers, although they may not be as open about it as we are.

We reserve the right to measure traffic to determine whether the customer adheres to this "fair use" policy. If the customer exceeds the average usage of all users over 10 times, we are entitled to charge the "outside of bundle" fee for use above these standards. It is also possible for us to make traffic (temporarily) impossible if the customer is in violation of this "fair use" policy.

Special Countries*

All traffic to, from or in special countries is billed at outside bundle rates. Special countries are: Argentina, Benin, Bermuda, Burkina Faso, Cuba, El Salvador, Gabón, Guatemala, Guyana, Kenia, Laos, Maldivas, Mexico, Mongolia, Panamá, Peru, Rusland, Sri Lanka, Togo, Trinidad and Tobago, Zimbabwe, Cruise Ships.

(All rates in Euro per minute / text/ MB with reservation)
